

Eye Protection – Seeing is Believing Infographic

Keep an Eye

...on Your Work

Work related eye injuries affect more than 2500 workers in BC every year.

CHOOSE THE RIGHT PROTECTION FOR THE JOB:

- When working around particles, flying objects, or dust wear **SAFETY GLASSES** with side protection.
- When working with chemicals, wear **GOGGLES**.
- Wear a **FACE SHIELD** over your safety glasses or goggles when the hazard is more severe.

Proper eye protection will decrease your chances of eye injury by 90%.
