HOW TO: LMS Navigation

Key Takeaways:

- Utilizing Bridge’s learning management system (LMS)
- Navigating through Bridges menus

Course Description

In continuation of our 8-part Bridge curriculum, this course will give a brief overview of navigating Bridge. If you wish for a more extensive coverage of Bridge’s key features, please see our Admin Training course. This course will show all the applications of Bridge to every type of user, ranging from learners to managers. You will learn about the two main layouts: Admin, which focuses on managing users and authoring content; and Learner, which solely focuses on the learner experience. In addition, you will given a brief overview of the My Learning, Author, Insights, and Admin tabs, along with the purposes of each. Lastly, we will discuss how to access your account information and personalize it as you wish. Our hope with this course is to get you up and running with Bridge so that you can quickly access what you need.
