TXWCC Safety Data Sheet

Handout on SDS safety including employer responsibilities and a safety quiz.

Introduction

The Safety Data Sheet (SDS) is the primary means of providing information concerning chemical hazards to employers and employees. The manufacturer/supplier of a hazardous chemical is required to prepare an SDS. The employer must obtain and maintain an SDS for each hazardous chemical or mixture in his or her workplace.

The Occupational Safety and Health Administration (OSHA) developed the Hazard Communication Standard 29 CFR 1910.1200 to ensure that the hazards of all chemicals are evaluated and that information is transmitted to employers and employees.

Goal

This training program assists employees in reading and…
