

Winter Weather Driving – Landscaping Infographic

Winter Driving Tips

INCREASE FOLLOWING DISTANCE
to 8-10 seconds when driving on icy, slippery surfaces.

WHEN DRIVING UP AND DOWN HILLS,
observe how other vehicles are reacting and maintain safe distance.

STEER AND BRAKE
with smooth, careful, and precise movements rather than quick, jerky motions.

DRIVE IN THE LANE
that's been most recently plowed, and avoid changing lanes unless necessary.

DO NOT USE CRUISE CONTROL
when driving on any slippery surface.

TAKE EXTRA CARE
when driving on shaded spots, bridges, overpasses, and intersections.
